

# Training Pipeline: Curriculum Learning & Multi-Step Rollout

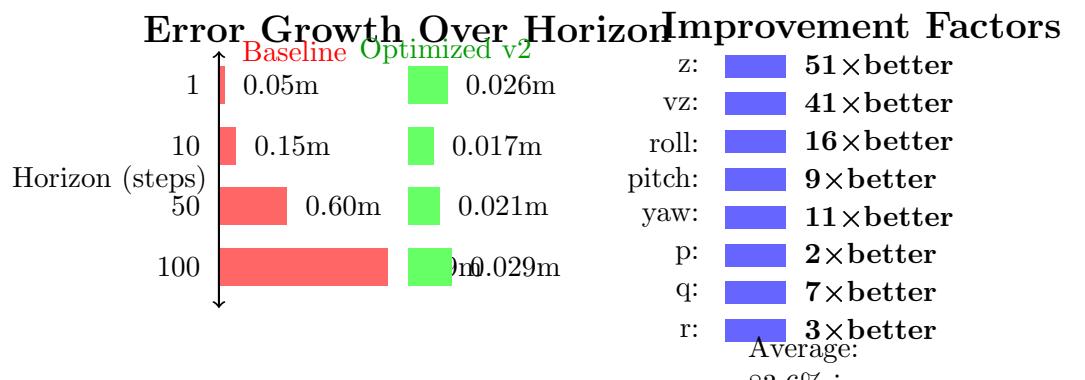

## Standard Neural Network vs Physics-Informed Neural Network

Standard Neural Network Physics-Informed NN (PINN)

## PINN v2 Performance: Holdout Test Set Results

### Key Achievement:

100-step horizon: 0.029 m error (vs 1.49 m baseline)

**51× improvement**

### Stability Metric:

Error growth baseline: 17×

Error growth optimized:  
1.1×

**15× more stable!**

### Physics Accuracy:

Mass error: 0%

Motor coeffs: 0%

Inertias: ±5% error
